2 Million Distributed World-Wide

"The Nail Trainer is worth every penny! I invested in one when I was struggling in school and have not regretted it."

How are you going to learn to do nails?

To learn how to make beautiful nails like these, you have to practice a lot.

Probably 30 sets to learn the basics, and another 30 so you're quick enough to work in a salon.

That's six hundred nails!
Now where are you going to find all those hand models?

The Nail Trainer: Your perfect model.

The Nail Trainer is like having a steady stream of UNLIMITED hand models available at all times. It's a life-like hand on a flexible arm and has jointed fingers, flesh-like finger tips, & replaceable nails.

Unlike live hand models, Nail Trainer is a blast to work on, always available, never complains, and you'll never hurt it during a training session. You simply attach the Nail Trainer to a table and practice creating nails again and again, until they are perfect. You learn much quicker and to a very high standard so your investment in the Nail Trainer is paid back quickly. Your great technique, learned on the Nail Trainer, will keep your customers coming back time after time.

How does it work?

Simply work on the Nail Trainer as if it were a live hand model. Example: to build a set of gel nails:

Let Nail Trainer help you become a Master Nail Technician!

Choose a nail shape.

Tip and blend as normal.

Apply gel & cure as normal.

Remove the finished nails and save on your progress cards.

All your work is saved, your teacher can inspect your work easily.

What will you learn?

Every nail system and every technique can be taught, learned and practiced on the Nail Trainer nail training hand.

UV GEL

Prepare the nail, tip, blend and apply gel layers. Cure in light box, finish and polish.

FIBERGLASS

Prepare the nail, tip, blend and apply fiberglass/silk wrap, and resin. Activate, finish and polish.

ACRYLIC

Prepare the nail, tip, blend, prime and apply acrylic liquid and powder. Finish and polish.

MAINTENANCE

Practice fills, rebalance, crack and chip repairs. You will not get this sort of practice in any other way.

SCULPTING

Prepare the nail, fit form, sculpt free edge, sculpt body of nail. Shape and buff to a high shine.

AIRBRUSH

Apply base coat, create your airbrush designs with stencils and paint. Top coat and save the nails.

Where can I use the Nail Trainer?

Training schools. The complete integration of the Nail Trainer into the training syllabus means:

- No live hand models required.
- Teaching is easier, achieving higher standards.
- Teacher can set home work.
- Mistakes are made on the Nail Trainer, not on people.

Nail salons. Having a Nail Trainer in the salon means:

- You can easily train staff.
- You can use "down time" for training.
- You can instantly try out new products.
- You don't have to offer price reductions for nail sets produced by trainees.

At home. Having a Nail Trainer at home means:

- You learn skills quickly through thorough practice.
- Students can practice when they want, for as long as they want.

"At first, I was too nervous to work on live models. Practicing on the Nail Trainer made learning easy, stress free and fun. I took my completed nails back to my teacher at the school and she was amazed at my progress".

Sarah Jones, Red Lodge Student.
